

BWM28 PVC MESH

280gsm (unlined) Banner Mesh

Description

This mesh construction is specifically chosen for image quality & high strength while maintaining ideal air permeability.

Formulated for long term UV exposure with the option to upgrade to building wrap standard.

Specifications/Features

Weight	+/- 280gsm
Base Fabric	1000 D x 1000 D
Threads	12 x 12 (per inch)
Air Permeability	2,649 MM/Sec
Tensile Strength	Warp - 1,350 N/5cm Weft - 1,350 N/5cm
Tearing Strength	Warp - 300 N/5cm Weft - 300 N/5cm
Temperature Resitance	Low -20 C High +70 C
Roll Widths	1.6m, 1.8m, 3.2m, 5.0m
Roll Length	50m 110m 160m

Compatibility
