Adhesive:

AP901 General Purpose Permanent: Permanent pure acrylic adhesive designed for films. Featuring high cohesion, good clarity and very good performance on non-comparable substrates (PE,PP), ISEGA certified for direct food contact.

Properties	Test Method
Composition	Water based acrylic
Direct sunlight resistance	Excellent
Cohesion	High
Application temperature	-5 degrees celsius
Service temperature	-40 to 120 degrees celcius
Tack FTM 9	8 N/Inch 2
Ultimate adhesion FTM 2	7 N/Inch

Laminate:

Laminate Shelf Life	24 months stored at 20°C/50% RH
Typical laminate calendar	134 ± 6 ums
Total weight	139 ± 6 RIT.PP-032

The technical specification includes our experience and know how in regards to the following:

- The composition of our products
 - Their generic adhesive qualities normalised by means of the ISO procedure and regarding the international rule Finat generally accepted in this sector.
- Any reference to final use is subjected to our good knowledge an opinion and does not imply specific irrevocable guarantees for final use in end product labelling and packaging. Over and above these standards the product user is responsible for assessing, testing and ensuring the specific scope of the label in certain application by means of prior generic official approval.

Backing

WG 1side siliconised supercalendered white glassine

Grammage	65gsm
Caliper	56 microns
Transparency	> 40%
